people / excellence / delivery / integrity / innovation

COMPANY OVERVIEW

AANDS is a Dynamic, proudly South Africa, BEE accredited, Female owned Company that specializes in Industrial and Commercial Moving and Manufacturing of Surrounds and Kiosks for ATM'S and related Products.

Our team with 30 years of combined experience in the ATM environment is dedicated to improving our products and services and meeting the needs of our customers. Our experienced staff is fully equipped with a modern fleet of vehicles, specialized tools and equipment. They can handle any moving and installation project, whether it's a single piece of equipment or an entire plant that needs to be dismantled, moved and re-assembled.

We offer Locksmith Services and Refurbishing of Security and related equipment. AANDS has been helping customers solve their unique challenges with innovative product development, quality manufacturing and proactive customer service. Our areas of speciality is industrial design, engineering, custom and large-scale manufacturing, construction and project management, industrial moving and storage plus security product installation and service.

AANDS started the company serving the retail banking industry with moving, storage and physical security services. As Automated Bank Machines began to revolutionize banking, AANDS grew along with the industry it served and became the first to design and produce a major rollout of ATMs in Southern Africa.

AANDS is one of the leading providers of custom ATM products in Southern Africa. Remaining true to our roots in Financial Services, over the years AANDS has grown to serve a number of other industries including Petroleum Retailers and Mass Merchandisers. AANDS has become an industry leader in developing new products, adopting new production and design techniques.

Through our success, our family owned business has never wavered from three fundamental principles - Trust, Commitment and Service. We call it our "Yes we can" approach. At AANDS, we listen to our customers, their needs, their schedules and their budgets. We work as partners with each and every customer to design, develop and install exactly what's needed

for their business whether it takes two weeks or two years.

We are a very "hands on" company. All at AANDS, from the president's office to the paint shop, understand our mission – to add value to our customers' business through our experience and creativity, while understanding your needs in a constantly changing market place.

CONSTRUCTION & PROJECT MANAGEMENT

Whether you're renovating your space in a major city or building out a new one in a remote location, AANDS will make sure your construction job is done right.

Whether completing small or mid-size construction projects (including finishing, design and fabrication services), we have built a strong network of reputable companies and trades people to call on so that the job will be done right.

AANDS deal with permits, drawings and tenants, so you don't have to.

From day one until completion, AANDS Project Management team will make sure your project goes smoothly. We specialize in multi-site retail environments; financial institutions, petroleum retailers, and mass-merchandisers. Whether you're renovating, constructing or re-branding, AANDS's in-house project management capabilities will partner with skilled trades people to undertake any size project.

PROJECT MANAGEMENT PROCESS

Project Evaluation

It begins with a close partnership with our customer and an even closer evaluation of the project. We establish schedules and budgets, including site specific quotations, for a variety of jobs:

- ATM and surround installation
- Exterior/interior re-branding projects
- Installation/replacement of exterior/interior signs
- Renovations
- Repairs and preparations
- Finishes
- Electrical
- Flooring
- Painting

SECURITY SOLUTIONS

AANDS has the right expertise, the right team and the right price for new and pre- owned security equipment and locksmith services. We can work with you to help identify your needs and then together we select the right solution from the wide array of security options we offer.

These include

Vault and safe combination locks

Digital and spin combination locks

Vault doors

Under the counter and Anti-Hold up cabinets

Interior and exterior building door locks

Vault lockers and safe deposit boxes.

AANDS TEAM OF PROFESSIONALS

AANDS management team provides strong leadership and works closely with delivery teams to ensure the highest quality of service and support. Our staff, possess a unique combination of experience, creativity, skills sets, specializations and technical expertise. Every member of the AANDS leadership team has extensive industry experience.
